After extensive, multiple revisions, the IRS released a redesigned Form 990, as well as related Instructions, effective for tax year 2008. The new Form 990, which is the first major revision in almost 30 years, will be required for filing in 2009 for years ending on or after December 31, 2008. The IRS developed the new form with the goals of (1) enhancing transparency, (2) promoting tax compliance, and (3) minimizing the reporting burden on filing organizations.

This session will discuss: (a) the new reporting requirements (which will include review of the “core” 11-page form and 16 supplementary schedules), (b) disclosure requirements, and (c) what your organization can and needs to do in order for the process to run smoother.

Advanced Registration is Required by Monday, February 9, 2009. Register via E-mail, fax or on-line at www.snapnonprofit.org for one of the most rewarding strategic investments your organization could ever make.
